## EDUCATION

### Hamdard University, Karachi — BS Software Engineering (October 2021 - June 2025)

Enthusiastic 7th-semester Software Engineering student with a focus on developing cutting-edge solutions. Proficient in multiple programming languages, I bring a strong analytical mindset, problem-solving abilities, and a passion for innovation to collaborative projects. Ready to collaborate with my expertise in a dynamic software development environment.

## PROJECTS

### MERN Social Media App — Using MongoDB, Express.JS, React.JS & Node.JS

Full-stack MERN app with user authentication, profile management, post creation, image uploads, and commenting. Integrated image drag-and-drop, JWT security, and custom RESTful APIs. Responsive React UI with optimized backend handling using Multer.

Project Link: <https://github.com/hassanshakil12/MERN-Social-Media-App>

### YouTube Clone — Using React.JS, CSS, & JS

Mentioned is a project I have created using react.js and it's a clone application of youtube. Rapid API's Youtube v3 API is used to fetch videos and other details for this project. Material UI components are used to speed up the development process and create elegant UI.
